SUMMARY

I am a software developer experienced in building web applications from scratch. I have an adaptable mindset to continuously learn and grow in the industry. My background in Jazz has equipped me with a combination of creative and systematic, analytical skills that are directly transferrable to the software engineering industry.

TECHNOLOGIES

Languages: HTML5, CSS3, Javascript

Libraries & Frameworks: React, Node, Express, Bootstrap, JSON, Restful API

Platform & Technologies: Netlify, Render, GitHub, Visual Studio Code, Postman

WORK EXPERIENCE

The Coding Space

Current
New York, NY

Coding Mentor

- Mentored students on web development projects requiring HTML, CSS and JavaScript.
- Implemented Socratic method into mentoring to develop problem-solving skills.
- Organized student-led problem-solving and debugging sessions to help develop critical thinking skills.

Twitter App-Lead Developer [Github](#)[Demo](#)

- Developed a full-stack application using HTML, CSS, JavaScript, React, Node, Express and Bootstrap.
- Created a back-end server with Node and Express to create an internal API.
- Designed and created a search page to display the ten most recent tweets along with liked and retweet counts.
- Implemented custom CSS with React-Bootstrap to ensure a responsive and visually appealing front-end.

Star Wars App-Lead Developer [Github](#)[Netlify](#)

- Designed and developed a front-end application that searches star wars character data.
- Integrated the SWAPI API to retrieve and display data for a hundred characters count.
- Coded JavaScript event listeners to provide search and reset functionality.

Expense Tracker-Lead Developer [Github](#)[Netlify](#)

- Developed and designed a front-end application for tracking user expenses using ReactJS.
- Utilized Bootstrap for responsive web design and deployed it on Netlify.

Open Source [GitHub](#)

- Contributed to an open-source project by adding my name and repo in the GitHub branch.
- Collaborated with the project host to resolve merge-pull request issues and maintain code quality.

EDUCATION

Software Development Mastery, Inc

Full Stack Web Development Program, 16 weeks mentorship program

July 2022 - Nov 2022
Remote

New York University Steinhardt School of Music

Master of Music, Jazz Studies

2020
New York, NY

Takeo Bootcamp

AWS Python Developer Program, 10 weeks intensive program

March 2023 - present
Remote
